## SPECIAL CLUB LIST

THE following list of Weekly and Monthly Newspapers and Magazines are selected as representative publications in their different fields, combined with

### The Illustrated Home Journal.

The first column of figures are the combined subscription prices of the two, and the last column is the net price at which we can fill orders. In many instances it will be noticed that we offer the two papers at the price of one, and in some cases actually less than the regular subscription price of the paper offered in clubbing.

A careful perusal of the list will save the reader some money. When more than two publications are desired, or any not included in this list, a SPECIAL PRICE will be furnished on application.
